

SURVEY AND EXPERIMENTAL STUDIES BY STAFF MEMEBRS

The district recognizes that properly designed and conducted surveys and experimental studies may have value and may provide information of interest or use to the district.

A staff member who desires to conduct a survey or an experimental study requiring data from or about the district shall submit a written request for approval to the immediate supervisor who will forward the request, along with a recommendation to approve or disapprove the request, to the Superintendent or designee. The staff member shall be notified in writing regarding district approval or denial of the request and conditions under which the study is to be done.

Upon completion, a copy of the results of a survey or experimental study must be submitted to the Superintendent or designee.
